

Implant 900

— your reliable partner in implant dentistry and oral surgery

Implant 900

— efficient & easy to operate

-
 - Easy-to-read display and user-friendly to operate.
 - Preset programs for Dentsply Sirona implant systems, still adjustable by the user.
 - Torque settings of 5-70 Ncm.
 - Wide speed range of 300-40 000 rpm which can be adapted to implant dentistry through contra-angles with 20:1 reduction.
 - Separate thread cutter program.

-
 - The foot control can regulate speed, forward/reverse, coolant pump and program switching.

-
 - The motor is shorter and lighter than previous versions, for improved ergonomics.
 - The motor and cable can be sterilized.

-
 - Implant 900 Set includes a contra-angle WI-75 E/KM.
 - The dismantlable WS-75 and WS-75 L G are also intended for the Implant 900 unit motor.
 - WS-75 L G provides LED light from an integrated generator.
 - All contra-angles have a hexagon chucking system enabling high torque transfer (above 30 Ncm) to instruments without deformation.

-
 - Two handpieces, S-11 and S-9, are available and mainly intended for general oral surgery procedures.

For maintenance of products included in the Implant 900 Set, please follow the manufacturer's instructions.
